

Messages from the Fairies

received by participants
of the 2nd annual Fairy & Human Relations Congress

Held July 5-7, 2002 - Edition #1,

Following are 24 messages from the fairy realm as received by participants of the Fairy & Human Relations Congress held July 5-7, 2002. Most of the messages were written down immediately following the joint fairy and human meditations. I have done very little to edit these messages for grammar. Any Congress participants who haven't sent in their written messages from 2002 are invited to do so for inclusion in the next edition.

Drink the waters of the air
the fragrance of flowers.

*We are so pleased that you are back !
The fairy Kingdom enjoyed the

Be open & aware this weekend and
we will speak to you. We are everywhere,
and greet you most enthusiastically.

*Fey
The connection is tenuous
a white silver cord
a veil in passing
We serve your realm
but are not of your realm
We go to different places
but can meet in passing.
We serve you in your evolution
We are already saved
You are too - when time changes
Time is strong in your existence.*

The Fairy's came to me from the left side -
they seemed sad at first -
one whispered in my ear

LOVE FIRST

I could hear their breath on my face and it seemed
there were 5 or 6 - I started seeing lights twinkling and
inside my eyes - at one point I felt as though I was
floating in water
the lights
stayed predominate
throughout -

We Love you.

T-shirts of the congress. Make them.
BE them. The energy of them will
lighten you when you see the image and
when others see/feel it.

Stop - and smell the

Stop - and feel the

Stop - and taste the

Stop - and touch the

Sense. You are a sensual being. That is what the earth
realm is so abundantly rich in. It is your gift for BEing
here. Savor it all.

Open your heart. It is the vulnerable, oh-so-tender part
of you that is your essence. Find that place - be coura-
geous about removing the walls/the veils that have cov-
ered it for so long. You know you don't need to hide
any more. You are so infinitely loved, you are infinite
love itself.

Every thing, every one around you is helping you
re-member who you are. It is all re-minding you. Know
that it is you that has placed these
'alarm clocks' to go off to awaken you.
Bring to mind you are one member.
Lose your mind = Come to your senses.

UNI-VERSE = one song
You are all a note, a beauty-full note that
is the song of LOVING CREATION.

We bring the Dragons from our land, our journey
here yesterday was all about their coming with us.

Last nite there was a great gathering of Dragons
and their energy here. They were re-uniting with each
other in this beautiful valley.

Today there is hesitation in the air about the Drag-
on's PLACE - here in the Fairy Kingdom -

We are SO BIG - how does our POWER fit in with
so many small & delicate fairy beings. We are gentle
and willing to do whatever in order to be here - For
now, we hover at the top of the hills until invited to
come closer.

The Fairies appeared in rainbows of colors with their
wings showing every so often. This is the sequence of
color that appeared.

First radiant RED!

&

Bright Green

&

Yellow

&

Brown

&

Green

&

Red again

&

Periwinkle

&

Hot pink

&

Moss green

&

Orange

&

Polka Dot wings of red & pink

&

Radiant Blue of light blue hue which shimmered

&

White - like Northern lights.

Then an orange/pink mozaic design of an unending
circle appeared going out to eternity filling up the
whole space.

I asked "How can I help?" Amidst fairy wings of
green appeared an Alligator type dragon head.

Received by Laurae Y. Lygre

Saw a vision of a large dragon laying in the center of our circle on his back, rolling around enjoying himself

Saw a vision of 3 fairy elders standing in the center of the circle overlooking things as the several other kinds of fairies were all around us

Set up gardens & places for the fey so they can travel from place to place since they are losing places to stay in the city (sort of like "greenways" but for fairies.)

- The faeries, devas etc all got along, why can't the humans from different regions get along?

- Open your hearts and love one another more

- Love the earth more, you have driven the animals further & further back and now humans are driving us further back.

- We help to bring the magick back into the world here on the earth

- Only humans create barriers between one another

Message unsigned,

We have enjoyed your antics immensely, and rejoice in your communion with us. Your ideas of our realm is still very incomplete but will grow as you continue to join with us. Do this often. Visit with us every day in some way. It will heal our separation. Together our realms can heal the earth, apart we can do little. There is much power in the joining. It is necessary. It is all important. It is THE only way. Do not despair. There are more humans than you realize connecting with us. Speak of us often - open hearts. Thank you -

King of the Fairies

I spoke with Devas (mature Nature Spirits) from each of the 4 realms, but they just wanted to chat & didn't have any messages to pass on.

One Great Deva mentioned that it would be a good thing if humans didn't interrupt profound experiences to try to analyze or describe that experience.

I called the little "Hybrid fairies" who had been living with me and who rode up here in the van with me. They all came & clambered over my chair. The biggest one, an old friend of mine, sat on the arm and swung around on it like on a jungle gym.

He said "We're not going home with you. Each of us has a different destination. As you expected, my other Nature Spirits have been attending their gathering, though not as many as at the original one so long ago.

Word had gone out through the Spirit Realm that a new kind of Nature Spirit would be attending, so there were "delegates" from each of the four realms who came to meet us and learn about us. We had our own convention separate from yours. We had to move some distance away from you because several humans brought "thought-form" beings with them and we can't co-exist with thought-forms. Thank you, Eileen, for erasing the thought-forms.

We rejoined you all for the party last night. It was a wondrous and joyous experience! Now we each have a job to do, to go out and spread the word about changes in the Spirit Realm."

Eileen Kilgren Bergman.

What do fairies want from humans? Why do or why should any of them want to know us?

*I saw compassion - teaching compassion to humans and learning compassion themselves. They live a lot longer than us & so we are but a moment - to watch us like the flickers of light through the hole in my sun hat as I lay in the grass with my hat over my face. We are beings, though, with life intent & love. And so they are interested in us & have compassion & love for us, so we pass this love on to the beings whose lives are but moments to us ~
And onwards and around the circle.*

I felt the vibrations & harmonics in the earth. like the earth was singing at the end of the meditation.

The fairies came to me and asked me to dance.

"What kind of dance?" I asked.

"Spiraling pirouettes", they said;

and

"Standing on your head and revolving". (laughter)

Our meditation circle was bathed in a Circle of Light.

Energy flowing down from the sky and

Earth Light rising from deep in the Earth.

Representatives of the Three-fold Alliance
were circled together.

All of us bathed in this grand column
of flowing Light.

Received by Michael Pilarski

There are not fairies and humans unless you choose
consciously / or unconsciously, that they are two dif-
ferent things/beings.

Rather than see two different groups, draw a circle
around both, and sense the one-ness, the non-duality.

Then continue doing this, until everything is in the
circle, until the circle ceases to be.

When you feel love, you think it's because of whatever
it is you're focused on. Know the love IS YOU, and
you're just remembering who you are. Feel the love -
than stop thinking, and the love remains. So it's not
about anything external. You ARE the Love.

Feel your mind expanding and opening up, like a
flower blossoming. It is time now.

You are all of it. They are just experiences/sensations.
You need not fear any of it. It is all your create.

End - Namaste', Received by J.Sun.
Sunday Meditation by the Ley-line.

There is no differentiation between life and dreams. Likewise, the faery realm is one with these as well. Why then do humans feel the need to place boundaries and make distinctions? It's all limitless. Life, dreams, faery all mesh together to form an intricate pattern of opportunity and possibility. There is no reason to block these things out. The humans have a perpetual need for drama and commotion and in so doing leave themselves blinded from all life has to offer. let go of this and the rest is boundless.

~ Received by Ardea. 7/7/02

Don't focus on the noise - focus on us! You humans always dwell on the negative. Pay attention to what you want, not what you don't want. It's so simple!

Message unsigned, July 5, PM

* Faeries do not die ordinarily except from disasters or of a broken heart --

* They will still be here - even tho we may destroy the planet for our own survival - They will be in a different form --

* Please humans, stop doing things (fire suppression) & meddling in things you do not understand - such as the Terrible fires burning in Colorado and Arizona- as result of your mistaken assumptions that this was good the forest - Now fairy creatures and 3D creatures have lost their homes. --

* Spend more quiet time & talk to us --

* We don't like your loud/sharp noises. Doors banging and chains saws & we leave when they are around, but we come back later. --

Peace on Earth

Remember that there are intelligences in all living things

plants

animals

all organisms

even rocks

streams, rivers

clouds.

Respect us, honor us, communicate with us, co-create with us. A world with abundance & beauty & room for all.

We all serve the common good.

We all come from the same source and shall return to the same source.

Love is the creator's will. Love is the base. Mutual respect.

May all beings resonate with love more and more as they evolve. Compassion, love, respect.

Received by Michael Pilarski.

Do you have a message for the world?

You are so serious. Lighten up. Why such doom and gloom in the human realm? Life is for joy and love and light. That is the only message you need, and it shouldn't be so hard to remember. Use your eyes to look deeply into any being in nature, for there you will not find sorrow - just joy. Be a creature of nature, bending and flowing in each moment. Be light, laugh and spread joy.

Received by Mary Getten. July 7,

On Saturday night I asked the fairies if they had any messages for us since we missed doing the meditation and danced instead. They said that that was their message, to dance, sing, play & have fun.

- Be here now, for this is a place of no time and is between the worlds. The past & the future take us away from this place

- Live in the center of your heart and find peace there, then spread this peace & love around

*** When the veil we create between the worlds loosens we realize that there is no difference or separation between us & the fey.*

The fairies told me to remind everyone that there are also fairies in the rocks, we sometimes forget about them, also in the waters and the fires.

Message unsigned.

Sound is a tangible connection between our worlds. For those who can not see us, listen and hear us. Hear us in the wind and trees. Hear us in the animals who feely speak our words. Give us instruments to play. The message will be found within the sound.

I was taken to the top of the hill to look down -- I was shown the ley lines from above - at that moment my spine became particles of light - I was told to open my eyes and when I did all I could see were particles of light backed in green.

I was told the old fairy stories were wanting to be mixed with new stories -

I was also told that Skeeter was the King of the Fairy's - and they all started laughing saying "and he doesn't even know it yet"!

I was asked to take the energy of the light in my body - to hold it there for a few seconds and let it out. The fairy's are so - ooo - oooo happy we are here and they thank all the fairy's in human form for being here and for believing -

As the prophecy of many elders & many traditions say - "unseen world's will be seen". The Fairy realm is the oldest and wants to be seen -

They all gathered around my face and started kissing me and chanting over & over again - "Don't forget us."
